Dear Roger,

As I mentioned in our telephone conversation just now, I'll enclose a copy of our "CIA Records Access Policy," which explains how we'll deal with your 7 September 1984 request on behalf of Dr. Robert Watson. Since your letter just got to us today, we'll call the Eisenhower Library this afternoon to let them know that our letter authorizing Dr. Watson access to CIA-originated documents up to the level of his clearances will be forthcoming next week. I note from your letter that OSD has already certified Dr. Watson's clearances to the Eisenhower Library, so that should be all in order.

If any questions arise, I hope you will give me a call at
